

**STATE OF WEST VIRGINIA**

**EXECUTIVE DEPARTMENT**

**At Charleston**

**EXECUTIVE ORDER NO. 49-20**

**By the Governor**

**WHEREAS**, a State of Emergency was declared on the Sixteenth Day of March, Two Thousand Twenty for all counties in West Virginia (the “State of Emergency Declaration”), to allow agencies to coordinate and create necessary measures to prepare for and respond to the outbreak of respiratory disease caused by a novel coronavirus now known as COVID-19; and

**WHEREAS**, Chapter 15, Article 5, Section 6 of the Code of West Virginia authorizes the Governor to, among other things, control ingress and egress to and from a disaster area or an area where large-scale threat exists, the movement of persons within the area, and the occupancy of premises therein, and to perform and exercise other functions, powers, and duties that are necessary to promote and secure the safety and protection of the civilian population; and

**WHEREAS**, Executive Order 9-20 required all businesses and operations in West Virginia, except Essential Businesses and Operations as defined therein, to cease all activities within the state except for such minimum basic operations as are necessary to maintain the value of the business’s inventory, preserve the condition of the business’s physical plant and equipment, ensure security, process payroll and employee benefits, or related functions, and the minimum necessary activities to facilitate employees of the business being able to continue to work remotely from their residences, and provided exceptions for businesses such as home-based businesses and certain small businesses while requiring proper social distancing and hygiene practices be maintained at such businesses; and

**WHEREAS**, since the issuance of Executive Order 9-20 and other executive orders ordering closed or otherwise limiting occupancy of certain establishments and facilities in this state, implementation of successful public health measures has resulted in revised projections of rates of infection and COVID-19 related deaths in West Virginia, as well as ever-strengthening supply chains for personal protective equipment and other medical equipment and supplies, resulting in greater preparedness and response capacity throughout the state; and

**WHEREAS**, on April 27, 2020, I, Governor Jim Justice, announced the state's reopening plan, West Virginia Strong: *The Comeback* (the "Comeback Plan"), to phase in the reopening of businesses in the state of West Virginia on a week by week basis to most effectively monitor and respond to the public health effects of this phased reopening, to be based upon certain metrics and conditions to safely reopen segments of West Virginia's economy and get our citizens back to work, while ensuring the health and protection of all West Virginians, and especially the state's significant elder and vulnerable population who are at most risk from the COVID-19 virus; and

**WHEREAS**, Executive Order 28-20 and Executive Order 30-20 allowed for the resumption of all medical procedures throughout the state while requiring that hospitals and ambulatory surgical centers around the state limit procedures to only more urgent procedures to ensure adequate response capacity and preserve necessary personal protective equipment and other resources at such facilities in the event of any surge of COVID-19; and

**WHEREAS**, under the Comeback Plan, Executive Order 32-20, Executive Order 36-20, Executive Order 37-20, Executive Order 39-20, Executive Order 40-20, Executive Order 41-20, Executive Order 42-20, Executive Order 43-20, Executive Order 44-20, and Executive Order 45-20 have been issued to transition the State to a safer-at-home policy and to allow certain types of businesses and activities to begin to resume or expand their operations, provided that certain safety measures are in place; and

**WHEREAS**, reopening additional segments of the state's economy in accordance with the Comeback Plan, utilizing a phased approach to reopen sectors of the economy week by week,

while continuing to prioritize and provide for the health and protection of all West Virginians, and especially the state's significant elder and vulnerable population, is in the public interest; and

**WHEREAS**, West Virginia's public health experts have advised that allowing for the reopening and/or expansion of certain types of activities in this state, including allowing fairs, festivals, and similar events to be held, is appropriate at this time; and
